Coachmen Product Advantage

# It's an **EASY** Comparison

**Chaparral Lite...** Designed for 1/2 ton trucks

## Exterior Advantages

**TurnTec Engineering** combines an aggressive frame and cap design to achieve the industry's best turning radius by a short-bed truck.

A new **aerodynamic front cap** has been designed to deflect air from all angles to reduce wind drag which increases fuel economy.

Chaparral Lite is "**lightest in class**" by utilizing aluminum in many areas including sidewalls and floors.

**Pack Max Storage** lives up to its name by delivering huge, unobstructed, pass thru storage space on the exterior of each model.

A **universal docking station** is located on the driver side for ease of use. Conveniently housing items such as the city water hook-up, fresh water fill, satellite hookup, termination valves and more.

An early spring or late fall camping trip shouldn't be optional. Chaparral Lite comes standard with the **Polar Package** which includes a fully enclosed underbelly with heated and enclosed termination valves.

No more battery drain! A handy **12 volt battery disconnect switch** is located inside the driver side exterior storage compartment for a quick shut down.

With a simple push of a wall mounted button, opening or closing the optional **electric awning** is easy!

**Extra long quick release pins** provide an easy solution to raising or lowering the front jack legs and are pointed forward for convenient access.

**Marine grade exterior speakers** are located beneath the awning and controlled by the A/B switch located on the stereo.

## Interior Advantages

The Chaparral sofa features the **Magic Night Sleep System**. With the touch of a button an attached air mattress can be electrically inflated. A large drawer can conveniently store blankets and pillows.

All drawers feature **residential steel ball-bearing drawer guides** and fully extend for maximum use.

Chaparral's **60" x 80" queen bed** features a **320 coil pillow top mattress**. This is no RV mattress!

Digital reception can be enjoyed on the optional **26" LCD flat screen television**.

**Jensen AM/FM/CD/DVD PLAYER with Ipod hook-up**. Designed specifically for RV's and includes an electronic **amplified antenna and A/B switch for zone listening**.

All windows include **Day/Night Shades** that control light and privacy while beautifully accenting the decors.

All lighting and stereo equipment operate off the 12 volt system making Chaparral Lite **Dry Camp Friendly**.

An **easy access laundry chute** is located in the bathroom of each floorplan.

**Trash can storage** is built into each kitchen.

The Chaparral Lite is designed with today's most advanced materials to provide 1/2 ton pickup customers an RV that pulls incredibly light but lives exceptionally big.

# It's an **EASY** Comparison

*Chaparral... Ready for anything.*

## Exterior Advantages

**TurnTec Engineering** combines an aggressive frame and cap design to achieve the industry's best turning radius by a short-bed truck.

A new **aerodynamic front cap** has been designed to deflect air from all angles to reduce wind drag which increases fuel economy.

**Pack Max Storage** lives up to its name by delivering huge, unobstructed, pass thru storage space on the exterior of each model.

A **universal docking station** is located on the driver side for ease of use. Conveniently housing items such as the city water hook-up, fresh water fill, satellite hookup, termination valves and more.

An early spring or late fall camping trip shouldn't be optional. Chaparral Lite comes standard with the **Polar Package** which includes a fully enclosed underbelly with heated and enclosed termination valves.

Chaparral is insulated so well that **astrofoil insulation** can be found inside the Pack Max Storage compartment as well as **insulated baggage doors!**

Standard **Dry Camp Package** including all 12 volt lighting, 12 volt stereo, fully enclosed underbelly and dedicated space that can be used for a generator.

No more battery drain! A handy **12 volt battery disconnect** switch is located inside the driver side exterior storage compartment for a quick shut down.

With a simple push of a wall mounted button, opening or closing the optional **electric awning** is easy!

**Extra long quick release pins** provide an easy solution to raising or lowering the front jack legs and are pointed forward for convenient access.

**Marine grade exterior speakers** are located beneath the awning and controlled by the A/B switch located on the stereo.

## Interior Advantages

Genuine **Corian countertops** are featured in each kitchen.

Chaparral engineers kept safety in mind when designing the **non step bedroom**. While the competition puts a step between the bathroom and bedroom, Chaparral is flat!

The Chaparral sofa features the **Magic Night Sleep System**. With the touch of a button an attached air mattress can be electrically inflated. A large drawer can conveniently store blankets and pillows.

All drawers feature **residential steel ball-bearing drawer guides** and fully extend for maximum use.

Chaparral's **60" x 80" queen bed** features a **320 coil pillow top mattress**. This is no RV mattress!

# The Chaparral Difference

Quality Construction

## WALL CONSTRUCTION

1. Gel-coated fiberglass exterior
2. 1/8" lauan wood backer
3. Hi-density block foam insulation
4. Radius window corner blocks
5. 2" welded aluminum sidewall studs
6. Fiberglass batten insulation
7. High-gloss front fiberglass cap
8. Metal backing strips

## ROOF CONSTRUCTION

9. One-piece EPDM rubber roof with 12-year warranty
10. 3/8" fully walkable roof decking
11. Fiberglass batten insulation
12. 5" roof trusses
13. 1/8" ceiling decking with vinyl protection

## FLOOR CONSTRUCTION (R14)

14. Residential grade carpet with stain protection
15. Residential grade carpet padding
16. Residential grade linoleum
17. 1/8" lauan wood backer
18. 2nd 1/8" lauan wood backer
19. Hi-density block foam insulation
20. 2" welded aluminum floor joists
21. 1/8" lauan wood backer
22. Darco floor bond (main floor)
23. Polypropylene fully enclosed sub-floor

## TIRES AND CHASSIS

24. 10" or 8" steel "powder coated" I-beam frame
25. 15" or 16" radial tires
26. EZ Lube axles
